PROFESSIONAL SUMMARY

Motivated HNDIT student seeking a Full Stack Developer Internship. Skilled in developing responsive full-stack web applications using PHP, Laravel, MySQL, HTML5, CSS3, JavaScript, Bootstrap, and React. Experienced in building academic and personal projects with a solid understanding of frontend and backend development. Familiar with AI-assisted software development using GitHub Copilot and Google Antigravity AI to improve development efficiency. Eager to apply technical knowledge, learn from experienced professionals, and contribute to real-world software development projects.

EDUCATION

Higher National Diploma in Information Technology (HNDIT)
Advanced Technological Institute (SLIATE), Trincomalee, Sri Lanka

Status: Reading

SKILLS & TECHNOLOGIES

Frontend : HTML5, CSS3, JavaScript, Bootstrap

Backend : PHP, Laravel, MySQL

Tools & Platforms : Git, GitHub, Visual Studio Code, Postman, Figma

AI Development Tools : GitHub Copilot, Google Antigravity AI

Concepts : Responsive Web Design, CRUD Operations, REST APIs, MVC Architecture

PROJECT EXPERIENCE

1. ConstruPay – Construction Payroll Management System

Developed a web-based payroll management system for construction companies to efficiently manage employees, attendance, payroll calculations, overtime, statutory deductions, and reporting.

Key Features

- Employee, Labourer, and Department Management
- Automated Payroll and Overtime Calculations
- EPF/ETF Deduction Processing
- Payroll Reports and Salary Processing
- Project Tracking
- Leave Request Management

2. Smart Dumping System

Developed a smart waste management web application that monitors garbage bin levels, optimizes garbage truck collection routes, and improves operational efficiency through analytics.

Key Features

- Real-time Bin Fill Level Monitoring
- Garbage Truck Route Optimization
- Automated Alerts and Incident Reporting
- Analytics Dashboard
- Interactive Map Visualization

3. Personal Portfolio Website

Designed and developed a responsive personal portfolio website to showcase technical skills, projects, and contact information.

Key Features

- Responsive User Interface
- Project Showcase
- Skills and About Section
- Contact Form
- Hosted on GitHub Pages
